Catalog Number (also known as the NHRIC)

For devices such as HYMOVIS[®], the manufacturer adopts a unique, 3-segment catalog number sometimes referred to as the national-related items code (NHRIC). Proper billing, especially to Medicare, Medicaid, or via electronic data interchange, requires the catalog number to be submitted in the 11-digit numeric 5-4-2 format (eg, 89122-0496-63). Do not use hyphens when entering the actual data on your claim. For example:

HYMOVIS [®] 11-digit Example	Reporting on CMS Claim Forms
